

Like Magic... Now you see it... Now you don't!

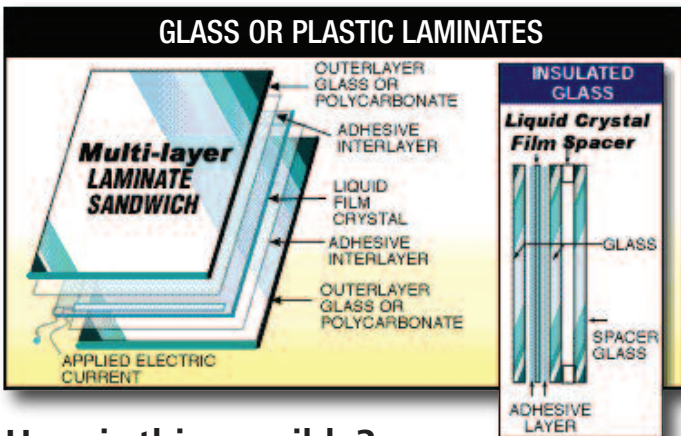

Switchable Glass Technology. Liquid Crystal Glass for your home or office.

Unique design possibilities...

With a flip of a switch, Liquid Crystal Glass or Plastic changes translucent to clear in 1 second. Imagine unique design possibilities. Our custom creations can combine multiple technologies.

- upgrade existing glass • media center
- yachts • bathrooms • conference rooms
- restaurants • doors • windows & doors
- medical offices • vehicles • custom art on glass

How is this possible?

The secret of the transformation between clear and translucent is the Liquid Crystal Sheet within the laminated glass. The random Liquid Crystal molecules diffuse light. However, when voltage is applied, these molecules arrange themselves to allow the view. Plug & Play solutions delivered. Benefit from our knowledge & expertise.

Privacy on demand, No more shades, blinds and curtains, block harmful UV rays and prevent damage to fine furnishings. Bullet resistance safety laminated liquid crystal glass and State-of-the-Art cutting edge technology.
